

K-LOVE is heard on 90.7 FM where I reside in Newport News, VA. The station serves as one of very few positive, family-friendly, Christian stations in the area, and to lose K-LOVE would severely limit the radio programming available to many of the families in the Hampton Roads area. Because K-LOVE is commercial free and funded by the very people who listen to the station, our community knows we are receiving exactly what we want: a Christian station that supports wholesome values and has a positive and encouraging impact on the community. K-LOVE is very listener friendly and there is no other station (online or via radio) that I have yet to rate better in all aspects.
